Why Start College Early?

By earning college credits in high school, you can:

- **Save money:** Dual Credit courses are free for high school students.
- **Save time:** Get a head-start on your college degree.
- **Experience college-level academics:** Prepare for the college workflow.

Will My Credits Transfer?

Mid-State partners with many four-year colleges and universities to make the transfer process as easy as possible. As a Mid-State University Transfer student, you will benefit from guided transfer pathways. This means **you'll get step-by-step support and guidance from us before, during, and after your transfer.**

What Is the Difference Between AP and Dual Credit?

Dual Credit courses allow for high school students to earn college credit while still in high school. Under this program, students take courses that are offered by Mid-State and receive both high school and college credit at the same time. Dual Credit courses are free.

AP courses are also taken in high school. They are college-level courses designed and administered by the College Board, and culminate in an AP Exam. Students must score well on the AP exam to receive college credit. The cost of an AP exam is \$98.
